

WHY IT WINS

Claritect sits between dashboards and one-off AI chat.

It combines repeatability, governance, and executive-ready output in one operating model.

	Traditional BI	One-off AI chat	Claritect
Governed source access	Partial	Inconsistent	Built in
Atomic scoped questions	Manual setup	Ad hoc	Built in
Business-readable report output	Usually manual	Variable	Built in
Repeatable schedules	Possible but brittle	Weak	Deterministic
Report Q&A after generation	Rare	Context loss	Built in
Business case follow-up	Separate workstream	Ungrounded	Built in
